# **EXPERIENCE**

#### **IoT Cyber Security Engineer**

#### Schneider Electric

₩ 05/2018 - Ongoing

Andover, MA

- Work within CI/CD pipeline, to assist in securing a constant delivery of cloud software to managed environments.
- Manage the cyber security process for the development teams.
   This involves completing penetration tests, working on threat models with the developers / architects, and completing required SDL documentation.
- Work directly with the development teams to help with DevOps work, and integrating security into the development process.
- Created a security CI/CD pipeline. This pipeline deploys Azure infrastructure, deploys several projects, runs automated security testing / auditing, and tears everything down. This pipeline works as a cyber security regression testing suite.

#### Cyber Security Consultant

#### % Steel Root

**1** 04/2015 - 04/2020

Salem, MA

 Secure and administer Steel Root's sensitive business applications.

#### Information Security Consultant

# **GraVoc Associates**

**1** 05/2017 - 05/2018

Peabody, MA

 Independently completed penetration testing, vulnerability assessments, social engineering engagements, and risk assessments. Social engineering engagements involved crafting tailored exploits based on the client's infrastructure.

#### Information Security Intern

#### % GraVoc Associates

**6** 08/2016 - 01/2017

Peabody, MA

• Assisted in penetration testing, vulnerability assessments, social engineering engagements, and risk assessments.

#### Cyber Security Intern

#### Schneider Electric

**1** 01/2014 - 08/2016

**♀** Foxborough, MA

 Responsibilities ranged from embedded software development, python scripting for automation of development tasks, and also building a virtualized cyber security lab to conduct assessments.
