EXPERIENCE

IoT Cyber Security Engineer

Schneider Electric

₩ 05/2018 - Ongoing

Andover, MA

- Work within CI/CD pipeline, to assist in securing a constant delivery of cloud software to managed environments.
- Manage the cyber security process for the development teams. This involves completing penetration tests, working on threat models with the developers / architects, and completing required SDL documentation.
- Work directly with the development teams to help with DevOps work, and integrating security into the development
- Created a security CI/CD pipeline. This pipeline deploys Azure infrastructure, deploys several projects, runs automated security testing / auditing, and tears everything down. This pipeline works as a cyber security regression testing suite.

Cyber Security Consultant

% Steel Root

04/2015 - 04/2020

Salem, MA

 Secure and administer Steel Root's sensitive business applications.

Information Security Consultant

% GraVoc Associates
