EXPERIENCE

IoT Cyber Security Engineer

Schneider Electric

₩ 05/2018 - Ongoing

Andover, MA

- Work within CI/CD pipeline, to assist in securing a constant delivery of cloud software to managed environments.
- Manage the cyber security process for the development teams. This involves completing penetration tests, working on threat models with the developers / architects, and completing required SDL documentation.
- Work directly with the development teams to help with DevOps work, and integrating security into the development
- Created a security CI/CD pipeline. This pipeline deploys Azure infrastructure, deploys several projects, runs automated security testing / auditing, and tears everything down. This pipeline works as a cyber security regression testing suite.

Cyber Security Consultant

% Steel Root

04/2015 - Ongoing

Salem, MA

 Secure and administer Steel Root's sensitive business applications.

Information Security Consultant

% GraVoc Associates

05/2017 - 05/2018

Peabody, MA

• Independently completed penetration testing, vulnerability assessments, social engineering engagements, and risk assessments. Social engineering engagements involved crafting tailored exploits based on the client's infrastructure.

Information Security Intern

GraVoc Associates

1 08/2016 - 01/2017

Peabody, MA

· Assisted in penetration testing, vulnerability assessments, social engineering engagements, and risk assessments.

Cyber Security Intern

Schneider Electric

1 01/2014 - 08/2016

• Responsibilities ranged from embedded software development, python scripting for automation of development tasks, and also building a virtualized cyber security lab to conduct assessments.

STRENGTHS

Pentesting CI/CD Eye For Detail DevOps DevSecOps Docker SDL **Security Automation** Programming **Threat Modeling** 3D Printing ISO27001 Azure Scripting Linux Administration Code Review Python PowerShell Bash C++ NodeJS Java (Android)

SECURITY TOOLS
